MANUFACTURING INSURANCE

You take pride and great care in the manufacturing of your products. The same accuracy that goes into making each “widget” must also be diligently applied to risk management, safety, TCOR (Total Cost of Risk), and overall corporate insurance programs.

Thankfully, you can consider the Skarin Agency to be another precision tool in your tool box when it comes to preparing comprehensive insurance plans.

With the Skarin Agency you'll find a partner with the knowledge to help you mitigate risk as well as access to premium manufacturing-specific programs that allow you the coverages you need while not breaking the bank. And as an added benefit, our curated library of resources help you implement new programs that can further help reduce your TCOR.

Our solutions include

- General / Professional Liability
- Commercial Property
- Worker's Compensation
- Business Income
- Product Recall Insurance
- Manufacturers' Vehicle Coverage
- Inland Marine
- Equipment Breakdown
- Umbrella
- Employee Benefits
- and more...

While all business comes with inherent risk, manufacturers simply carry more. This is the reason it's important to work with an insurance broker that understands your specific needs. Give us a call and see how we can help.
